WARMTH YOU CAN TRUST

DESIGN FOR EVERY BATH

WATER HEATER PRODUCT CATALOGUE

ABOUT US

Founded in 1996, Intex Technologies has grown into one of India's most trusted and diversified consumer electronics brands.

At the heart of this journey is our visionary Chairman & Managing Director, Mr. Narendra Bansal, who founded Intex with a vision to improve the quality of life for every Indian. His vision goes beyond products, focusing on creating opportunities for India's youth and delivering service excellence that builds lasting trust.

What began as a single-product venture is today a company that offers a wide range of product solutions across Consumer Durables, IT Accessories, Display Solutions, Small Domestic Appliances (SDA), Fans, Coolers, Lifestyle Electronics, Mobile Accessories, Security & Surveillance systems. By bringing so many categories under one umbrella, Intex has become a one-stop destination for consumers seeking affordable, reliable, and innovative technology-led products.

For three decades now, Intex has been committed to making world-class technology accessible to every Indian. With a presence spanning over 18,000 pin codes, supported by 500+ distributors, 25,000+ dealers, 11 warehouses, and 500+ authorized service partners, our products are not only widely available but also backed by best-in-class after-sales support. This robust presence ensures that wherever our consumers are, we're driving technology closer to them.

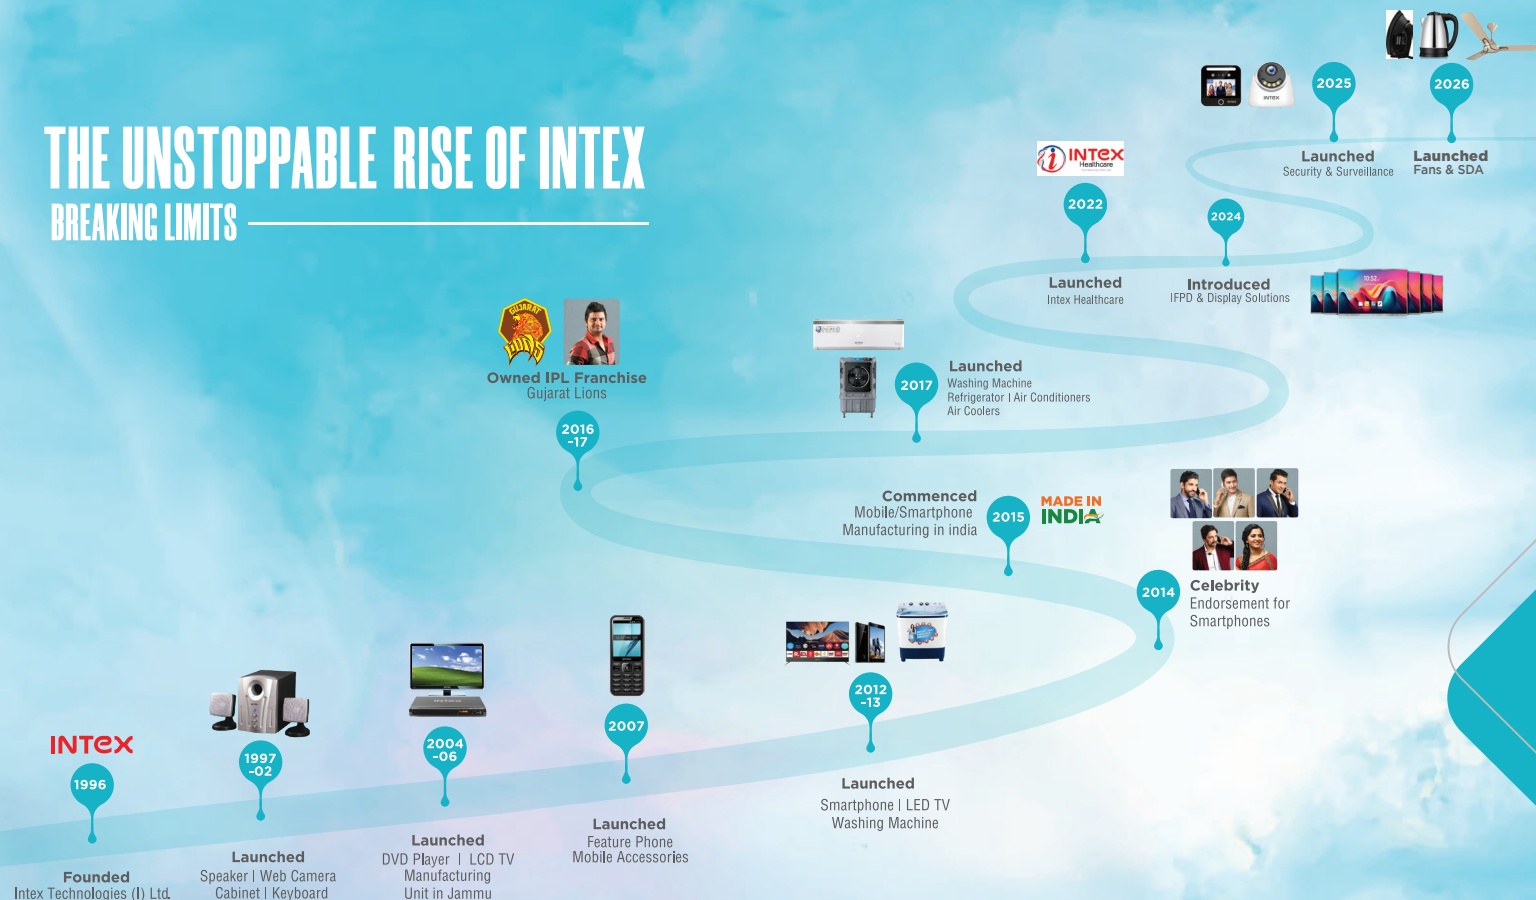

As a strong supporter of 'Make in India', we were also among the first to set up a state-of-the-art manufacturing facility in Jammu, reinforcing our commitment to domestic production, self-reliance, and national growth.

Along the way, we've reached several new milestones — from our landmark partnership with the Indian Premier League (IPL) to ventures in sports. Our journey is also recognized through multiple industry honours, including the World Brand Summit Award and the BBC Knowledge Award, among various others.
